Welcome

On behalf of the Abu Dhabi Obs./Gyne. Society, I am proud to welcome all delegates to our 41st International Organization Gestosis Congress in Collaboration with Ian Donald School Congress "UPDATES IN WOMAN HEALTHCARE AND FETAL MEDICINE".

This congress program will feature most of the Obs./Gyne. Updates in all subspecialties with series of debates, which will devote precious discussions to the pertinent issues that affect today's fast changing practice.

I am pleased that you have taken the time to respond to our invitation to participate as speakers, chair persons and delegates.

The response from drug and medical exhibition and workshops has been overwhelming and I would like to express my appreciation to all of them.

The organizing committee has been planning for the conference for the last year; I hope the delegates will find the scientific program to be intellectually stimulating, the social program enjoyable and the fellowship memorable.

Objectives of the School

- to promote: - the science and art of ultrasound scanning
 - research and education in the field of medical ultrasound
 - continuous training in ultrasound
 - and facilitate the dissemination of information, especially by scientific publications, including
 Donald School Journal of Ultrasound in Obstetrics and Gynecology
- to provide: - expert advice to those entering the field of ultrasound
- to increase: - knowledge of methodology for implementing recent ultrasound advances
- to contribute: - to the improvement of teaching standards by the introduction of computer technology and devices
 for telemedicine

The Ian Donald School is designed to address the needs of a clinician who has some experience in diagnostic ultrasound, but needs additional knowledge and practice in recent sonographic developments in both obstetrics and gynecology.

**Secretary General OG
Past president OG
Professor Faculty of Medicine Ain Shams University, Egypt
Honorary Academician of OGASH
Chairman and Rector of Intercontinental OGASH Academy
Chairperson of Presidium Intercontinental Academy of Medical-Social Sciences OGASH
PRIZE-WINNER OF HERA's GOLDEN PRIZE 2005-2006**

Professor Hamdi El Kabarity passed away on Sunday, June 21st 2009 at the age of 67. The loss of this eminent man is a great loss to all of us who had known him personally or through his work. His death also is a great loss to the Organisation Gestosis, to our profession, to science and to the population of Egypt and world wide. He was a highly accomplished and competent scientist. He has started many research and post-graduate-training programs, mostly in the field of Mother-and-Child-Health. These projects will continue to function and will keep his name and memory alive. He was a very early member of the Organisation Gestosis, President 1992/1993. Besides he also held additionally several important positions within our OG. Also he was taking care of the Secretariat General of the Organisation Gestosis, Branch Cairo, Egypt and was elected to take over fully at a later date. He founded the African Society of Organisation Gestosis and acted as its secretary general organizing several of their congresses. Of course he was recognized and celebrated by many recognitions, awards, diplomas, honorary memberships and medals for his outstanding work. May he rest in peace, and May God inspire his family, colleagues, and all of us the patience to cope with the great loss.

**A tribute to
Late Professor Ernst Theodor Rippmann**

MD. PD. FHM. OB/GYNE

Secretary General OG

Hon. Academician of IAMSS OGASH

Professor Ernst Theodor Rippmann who passed away on September 22nd 2009, will remain an unforgettable Scientist, dedicated medical doctor and honor man. We all will miss him very much and we'll try to honor his memory by devoting our studies and medical care to the health of mothers and babies by fighting Gestosis that will be entitled to him as Rippmann's Syndrome. We need to keep the flame of his passion to the OG burning by contributing to our best abilities. That would be the greatest homage that we can pay him . Our remorse and compassion to the OG Steering Committee members and his family.

His death is a great loss to the Organisation Gestosis, to our profession, and to us. The extent of the loss will be experienced fully only in the years to come. He has left a big gap, which is hardly ever filled. We cherish his memory and will never forget his personality, his courage, his wisdom and his optimism. May he be granted eternal peace.
